

## **Southeast District Fall Fire School**

Flandreau, SD. September 14, 2014

Flandreau Armory Building

Mission Statement: To promote safety and integrate the efforts of Local, State, and Federal agencies in structural and wildland firefighting practices.

### **Class #1 – Emergency Vehicle Operations Course (EVOC):**

The morning classroom session will cover applicable laws and safety issues while operating an emergency response vehicle. The afternoon session will involve operating a vehicle through an obstacle course.

Instructor is Pete Bolzer – 6 hrs. – no class limit

### **Class #2 – Properties of LP Gas & Live Fire Exercise:**

This class will provide information as to the properties of LP Gas and its associated hazards. The live fire exercise will provide information and build confidence on how to safely approach, control, and extinguish a fire involving an LP Gas leak.

Instructors are Michael and Monte Koopman – 6 hrs. - minimum class size of 25 students is needed to safely operate the live fire exercise. **All live fire exercise participants must have full structural PPE meeting NFPA 1971 Standard – NO exceptions.**

### **Class #3 – SCBA, Search & Rescue Techniques, and Smokehouse Exercise:**

The class will include basic classroom instruction and practical application of learned skills meeting the requirements of NFPA 1001. The hands-on portion will be completed utilizing theatrical smoke with a facility, and include basic search and rescue techniques.

Instructor is Steve Hermanson – 6 hrs. – class limit 30 students – all students must have NFPA compliant full structural PPE and SCBA.

### **Class #4 – Swift water Rescue (Shore Based Operations):**

This class is designed to give first responders an awareness level of the dangers of moving water and provide learning skills involved with shore based operations. Items covered in the class are hydrology, PPE, scene sketching, rope tactics, site survey, hazard identification, and shore based operations. There will be a classroom session in the morning with practical skills hands-on session in the afternoon.

Instructors are Patrick Duffy and Dustin Luebke from Sioux Falls Fire Rescue – 6-7 hrs. – no class limit. Students will need proper PFD (type III or type V) PPE and helmet. Gloves are recommended but not required. Practical skills hands-on session will be conducted near the river so bring appropriate protection (sunscreen, sunglasses, bug spray, etc.)

**Class #5 – School Bus Extrication:**

This class will provide technical information for proper school bus extrication methods and practices pertaining to cribbing/stabilization, proper tool selection, and proper cutting procedures. There will be a morning classroom session with hands-on skills training in the afternoon.

Instructor is Darrell Hartmann – 6 hrs. – no class limit – all students must have proper PPE to protect head, eyes, face, hearing, hands, body, and feet. (No tennis shoes or soft toed shoes or boots)

**Class #6 – EMS Training (KED, Back Boarding, Cold Weather Treatment, & Sports Injuries:**

The morning session will cover KED and back boarding information. The afternoon session will cover cold weather treatment and sports injuries information.

Instructor is Tom Price – 6 hrs. – no class limit.

**Class #7 – Emergency Vehicle Placement & Scene Safety at Motor Vehicle Accidents:**

This class will provide information as per the National Traffic Safety Council and National Department of Transportation on recommended practices for emergency vehicle placement and rescue personnel safety while operating near moving motor vehicle traffic incidents.

Instructor is Ben Vanden Hoek – 3 hrs. (Afternoon only) – no class limit.
